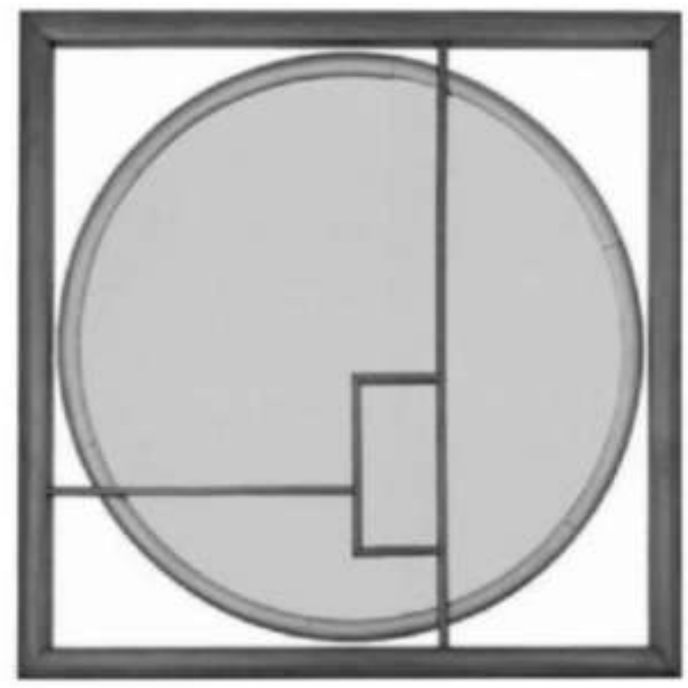
ART OF SPICE

Vibhor Sogani's 'Aroma' is a 35-feet-tall light installation with mirror finished stainless steel balls. The floating 'aroma rings' of light seem to enlarge as they move. The installation celebrates the role of spice-making as a work of art, and pays homage to those who are deeply involved in this undertaking. *vibhorsogani.com*



Magic in the mirror

Iqrup + Ritz's Carlo mirror pays homage to the forms and details frequented by architect Carlo Scarpa. Gold and teak finishes in the design combine to add an additional tactile dimension to this elegant mirror. *iqrupandritz.com*
